To: Cherokee Village Mayor Lloyd Hefley
and the Cherokee Village City Council

Dear Mayor Hefley and members of the Cherokee Village City Council:

It has been brought to our attention that the Cherokee Village City Council is holding a "working" city council meeting each month along with a regularly scheduled city council meeting. I believe the intention of these meetings have changed greatly over the past year and official city business is being conducted at the meeting you are referring to as a "working" meeting. These are, in fact, one in the same – public city council meetings to which the public should be informed of in advance so that they can attend. By referring to one of these meetings as a "working" meeting you are misleading the public about what is actually being accomplished at these meetings.

This letter is to officially request that either the city council meet once a month to conduct the city's business on their regularly scheduled date, or that the council announce the city will be holding two city council meetings a month and announce the dates of these meetings.

I have spoken with your city attorney Jon Abel and he agrees with me about this situation.

This letter serves as our official request that you correct this situation as soon as possible. We will monitor your response and progress and if it does not change will contact the attorney general and the prosecuting attorney to request a ruling on these meetings.

This letter is our formal request for you to correct this situation. It has been written so you will have the request on file. We will keep a copy on file in our office.

We look forward to working with you as we both serve the public. Please call if you have any questions.

Sincerely,
